

# The Dream Never Dies *CCND MEMBER OF THE MONTH*

*By Dave and Helene DiVito*

Being members of the Keystone State Corvette Club since 1978, we were lost when we moved to the First State from Chester County, Pa. We looked for comrades with common bonds, the CORVETTE! We joined the Corvette Club of Northern Delaware, whose members have been to many events with KSCC. It was an easy transition.

Our love affair began in the late sixties, when we were able to purchase out first in a long line of Vettes. It was a yellow '69 convertible equipped with two tops and AC, which we kept until our boys arrived in '70 and '72. Our mode of transportation became a Vega Station Wagon (what a let down).

The dream never dies, so they say, and when Dave saw a yellow '74 (L82 4-speed) for sale late in 1975, we jumped at the chance to become Vette owners again. We crammed both Kids and the dog in the Vette to go to an event!

Now we are empty nesters, and can drive our yellow '02 coupe alone and without someone else wanting to use the car! We are looking forward to many good times like the boardwalk parade in Ocean City, Maryland, which we did in previous years in yellow wigs to match our Vette. We can't think of a better way to stay young!

*It looks like Dave and Helene have an affinity for Corvettes, yellow cars and yellow hair! Did you know that the Vega became the first car ever won on the "Price is Right" it retailed for about \$2,000.00? One question...did they come in yellow? ...Joe DeSanta*
